

### To Omaha...

During September, 2000, Mr. Vincent R. Volpe, President of Jarvis Products, traveled to Omaha, Nebraska to speak before the Packers Engineering & Equipment Company's annual sales force meeting. Besides visiting Packers, Mr. Volpe also visited some old friends and good Jarvis customers in the Omaha region.

Picture of Packers Engineering & Equipment Company located in Omaha Nebraska. Their warehousing facilities are quite extensive. Packers is a fast growing distributor supplying the meat processing industry.

Mr. Vincent Volpe was invited to speak before Packers Engineering & Equipment Company's annual sales force meeting, who are pictured above. Packers has an annual 3 or 4 day meeting for all of their outside and inside people. The purpose of the meeting is to discuss milestones that occurred during the year, and to review new and upcoming products that the company is going to represent. Mr. Volpe always enjoys talking to this group, and has a very special affiliation with the Byrnes family, the company's owners, that dates back to 1956. Packers Engineering has been in business since 1939, and for many years has been a commendable Jarvis distributor.

Yvon Dufour, Leblanc's Vice President shown with the company's chief engineer while visiting Jarvis Products Headquarters.

During August, 2000, representatives from the Canadian company G.E Leblanc Inc., including Vice President Yvon Dufour visited Jarvis' Middletown facility. Mr. Vincent R. Volpe, President of Jarvis Products gave the Canadian visitors a personal tour of the building complex.

Leblanc specializes in the engineering and manufacturing of complete pork cutting and boning systems. Besides Canada, the company conducts business around the World. Mr. Patrick Fauret is Leblanc's President and General Manager.

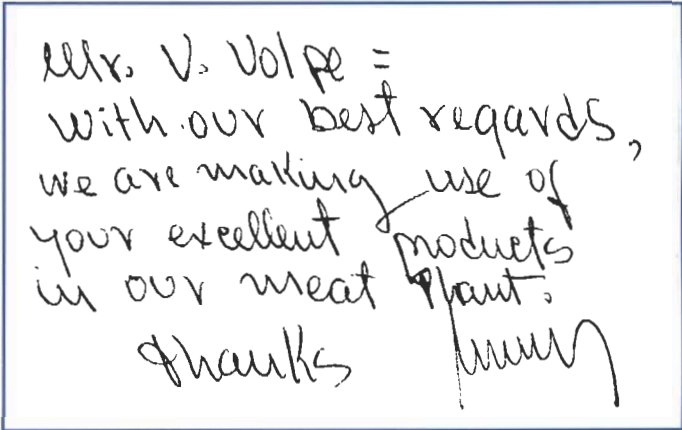

The purpose of the visit was to discuss the use of Jarvis built cutting heads on Leblanc's deboning machines. Although Leblanc and Jarvis Products have only a three month business relationship, we hope the future association between the two companies continues.

**A Thank You Note From Agropesa In Ecuador** 

**agropesa**

Recently, Mr. Volpe received a thank you note from Ricardo Salazar, Chairman of Agropesa, a major meat processing company in Ecuador. Established in 1982, Agropesa has a ten year relationship with Jarvis.

Besides the praiseworthy note, Mr. Salazar sent a picture taken at the company's Bienvenidos processing facility. We appreciate the product confidence expressed by Mr. Salazar and the Bienvenidos crew.

Picture taken at Agropesa's Bienvenidos meat processing plant. The sign says it all.
